

KYLDE VENCH DELARIA

Web Developer & Graphic Designer

kyldetech@gmail.com | <https://www.linkedin.com/in/kylde-delaria/>

I am a web and graphic designer with growing skills in **HTML**, **CSS**, **Tailwind CSS**, **JavaScript**, **PHP**, and the **Laravel** framework. I also use **Adobe Photoshop** for creating simple yet effective visual designs. While I don't have formal work experience yet, I've built a solid foundation through personal practice and continuous learning. I enjoy creating clean, responsive websites and exploring dynamic features using both frontend and backend tools. I am focused, quick to learn, and eager to apply my skills to real-world projects and teams.
